

Memo

To: Strategic Priorities and Policy Committee
From: 2022 Striking Committee
Date: November 4, 2022
Re: Appointment Recommendations

Chair and Members –

It is with pleasure that we submit the attached Striking Committee Report for your consideration. You will no doubt note, the significant quality of the candidates who have come forward for consideration of appointment to the City's various Boards, Commissions and Committees.

The Striking Committee met on October 26 and continued October 27 to review the applications and discuss recommendations for your consideration. There was considerable effort made to wholly review the applications and consider various factors in making the recommendations. These factors included, but were not limited to, continuity of 'institutional knowledge', providing opportunities for new voices to be a part of the committees, experience (scholastic, personal and professional) and appointments that could be considered reflective of the broader community.

You will also note, that our Committee was unable to finalize a recommendation for your consideration, with respect to the Middlesex London Health Unit Board. It is our recommendation rather that interviews be conducted with the candidates identified in the attached report.

Thank you for the opportunity to review the many exceptional candidates that are interested in serving the broader community of London; we also extend our thanks to the applicants.

Sincerely,

Z. Hashmi, M. Hernandez and P. Seale,
On behalf of the Striking Committee
