

12 July, 2013

Chair and Members
Civic Works Committee

Residents of South London (Westminster Area), particularly those residents and businesses who live, use and make their livelihood by utilizing the surrounding Municipal Roads of the Highway 401/Colonel Talbot intersection, are concerned about the closing of some of these roads. We want to ensure that no logistics or transportation challenges and problems will surface to adversely affect the local constituents.

As such, we request that City staff urge the Ministry of Transportation Ontario (MTO) maintain ongoing dialogue to keep the affected constituents fully in the loop, and report to this Committee and Council, the endeavours and resolutions as they emerge.

We understand that Staff will be bringing a report to the Civic Works Committee soon, and thus, members of the community are requesting Delegation Status. We hope they will be accommodated.

Thank you for your consideration of this matter.

Harold Usher
Councillor, Ward 12

Dale Henderson
Councillor, Ward 9
