# Analysis

## 1.0 Background

As previously reported to Council, following the annexation in 1993, the City of London became responsible for providing fire protective services to an area previously served by the Belmont Area Fire Board.

At that time, the City entered into an arrangement whereby the Belmont Fire Department provided initial response to the defined area. Subsequently, an amalgamation of Belmont with several other municipalities resulted in the creation of the Municipality of Central Elgin in 1998. This led to a review and revision of the arrangement.

Given the locations of London Fire Department (“LFD”) fire stations relative to the area, LFD cannot provide the requisite level of service without the assistance of Central Elgin Fire and Emergency Services - Belmont station.

Entering into an Agreement with the Municipality of Central Elgin for the provision of fire protection services to the defined area was found to be a cost-effective method of maintaining the continuity of level of service. It should be noted that within the Agreement, LFD vehicles are simultaneously dispatched to alarms in the defined area; however, the response from Central Elgin Fire and Emergency Services - Belmont Station reduces the initial response time.

In 2008, Council approved entering into an Agreement with the Municipality of Central Elgin for the provision of automatic aid to the defined area of the City of London for the period from January 1, 2008 to December 31, 2012.

In 2013, Council approved entering into the same Agreement for a further five-year period from January 1, 2013 to December 31, 2017.

In 2017, Council approved an additional five-year renewal of this Agreement, from January 1, 2018 to December 31, 2022.

Civic Administration is recommending that this arrangement be continued for another five (5) years from January 1, 2023, to December 31, 2027, in order to maintain a stable and cost-effective fire protection services delivery to the defined area within the Agreement. In addition, Civic Administration recommends that, unless terminated pursuant to the terms of the Agreement, it is to be automatically renewed at the conclusion of each term for two (2) consecutive terms of five (5) years.

## 2.0 Discussion and Considerations

### 2.1 Use of Automatic Aid Agreement

On average, this Automatic Aid Agreement has been used twice annually.

### 2.2 Updates from Previous Agreement

To renew this Agreement, the following proposed updates have been included:

- An inclusion of an automatic renewal clause for two (2) consecutive terms of five (5) years.
- Section 5.2 of the 2018-2022 Agreement referenced the On-Call Chief. Now, with Platoon Chiefs as management, the Platoon Chiefs will be the point of contact.
- Section 6.1 referenced the firefighter training standards as of Jan 1, 2008. Within this new Agreement reference is made to the new regulation, O. Reg. 343/22: FIREFIGHTER CERTIFICATION, and the level of service thus provided to the City of London by the Municipality of Central Elgin meeting this Regulation.

### 3.0 Financial Impact

The Acting Fire Chief for the City of London has been in discussions with the Fire Chief of the Municipality of Central Elgin and jointly agree to an increase of 4% per annum for the continuing delivery of fire protection services. Historically, increases have been 3% per annum. The cost of service for the years 2023-2027 will be:

Year	Annual Amount
2023	\$9,227.00
2024	\$9,596.00
2025	\$9,980.00
2026	\$10,379.00
2027	\$10,794.00

Funding for this agreement is included in the current budget and any increases will be managed within the LFD operating budget.

The attached, updated Agreement has been reviewed by the City Solicitor's Office and the Risk Management Office. The Agreement includes a mutual indemnification Agreement for any negligent acts or omissions of the parties, or their legal representatives related to the Agreement. Given the nature of the arrangement and that LFD will assume command on arrival at any event, the risk is low.

### Conclusion

As a result of the annexation that occurred in 1993, the City of London became responsible for fire protection services to an area previously served by the Belmont Fire Area Board. Subsequently, an amalgamation of Belmont with several other municipalities resulted in the creation of the Municipality of Central Elgin in 1998. This has led to the City continuing to renew an Automatic Aid Agreement with the Municipality of Central Elgin, as a cost-effective method of ensuring the residents of the area continue to receive the requisite fire protection services.
