Subject: Request for delegation to appear before the Investment and Economic Prosperity Committee August 26/13

Re: Proposed 2 mega watt Solar Project on the Pottersburg Creek Brownfield property

Let this reply be a request for our delegation to appear before the Investment and Economic Prosperity Committee, on the August 26/13 meeting for our solar project proposal on the Pottersburg Creek Brownfield...Please put this request forward on the July 29/13 meeting

Dear Betty, As referenced above, we are proposing a Large "FIT", 2 mega watt, solar project on the Pottersburg Brownfield property on Clark Rd. near Huron St.

We are offering a partnership with the City of London, as now provided for by the OPA's revision of municipal participation in privately initiated projects, that will provide long-term income (20 years, guaranteed) to the city, and renewed life into the industrial area known as Huron Industrial Park.

The delegation will consist of Bridget Welton, principal consultant for Ace Partnerships Inc., and David J. Webb, partner and London Representative.

If you need more information, please contact me, David J. Webb at [519-660-8176](tel:519-660-8176) or dwwwwebb@gmail.com

Sincerely

David J. Webb
