DRAFT

SCHEDULE B – PROJECT DETAILS

B1. Project Description:

In response to major floods in 1937, the City of London has developed a system of flood protection dykes along the Thames River. The dykes protect people and properties in areas that would otherwise be at significant risk of flooding. The Broughdale dyke is an integral part of this larger flood control network that includes other dykes, flood control dams, and a flood forecasting and warning system. In recent years slope stability concerns have been identified at the dyke and the dyke fails to provide the necessary flood protection (250 year event) mandated by the provincial government.

The Broughdale dyke, located on the south side of the Thames River between Richmond Street and Meadowdown Drive, is 710m long. Construction of the western section of the dyke, from Raymond Avenue to Meadowdown Drive, was completed after the 1937 flood with the eastern section, in Ross Park, completed in 1990. The Broughdale dyke hazard classification is Moderate/High based on potential impacts to life and property within the Broughdale area if the dyke were to fail. The minimum Design Flood for a Moderate/High classification is the Regulatory Flood (250 year event). The dyke currently provides protection up to the 100 year event, putting residents of 191 properties within the 250 year regulatory flood limit at risk of flooding.

In 2011, stability and condition assessments of the Broughdale dyke identified sections of the dyke to be in poor condition with severe stability issues which require, at a minimum, reconstruction of the unstable sections to ensure public safety. The 2013 London Earth Dykes Stability Review (AECOM) assessed the stability of the Thames River Dykes and developed Preliminary Dyke Standards in the absence of Provincial standards. The long-term management of the Broughdale dyke should take these standards into account while also considering climate change adaptation. The Broughdale Dyke Flood Characterization 2D Model Report was completed in 2016 and identified very high flood hazard for the people and structures within the Broughdale Area during the 250 year event due to fast flowing and deep water. These studies indicate a need to consider repairing and raising the Broughdale dyke to provide critical flood protection for the Broughdale community.

A Broughdale Dyke Municipal Class Environmental Assessment was completed in 2019 and recommended to raise and extend the dyke to the 250 year event plus 0.9m freeboard to account for climate change resiliency and relocate the dyke between Bernard Avenue and Meadowdown Drive towards the floodplain. The recommendation provides adequate level of protection for the people and properties within the Broughdale area.

B1.1 Project Objective:

The overall project objectives of the project are to rehabilitate the dyke by raising and extending it to withstand a 250-year event; and relocating it towards the floodplain for added protection. This would improve the resilience of the community by ensuring that residents, properties, transportation networks, critical infrastructure, and access to essential services are protected.

The existing Broughdale dyke is a 710m long stretch of earthen dyke and protects 191 properties including low density residential, high density residential, institutional (Kings College), recreational areas (parks and pathways) and an arterial roadway (Richmond Street). The Broughdale dyke hazard classification is moderate/high based on potential impacts to life and property within the Broughdale area if the dyke were to fail.

To achieve the recommendation of the EA, the project area is broken into four main areas, as shown on the map below in Section B1.3. The first two sections in Ross Park and Raymond Avenue required the dyke to be raised approximately 1.9m and have existing overgrown vegetation removed. The next section along Meadowdown Drive required the dyke height to be raised 1.5m, hazard trees and vegetation removed, and replacement of existing gabion baskets and railway ties. The final section requires the dyke to be extended along the Thames River towards Kings College and raised 2.0m in order to achieve the 250 year level of protection.

Raising and extending the Broughdale Dyke reduces natural heritage risks to the people within the Broughdale Area. Flood protection is increased for the many residents within the area and Ross park will be further protected from erosion due to high flood waters.

SCHEDULE C – COMMUNICATIONS PROTOCOL

C.1 PURPOSE

This Communications Protocol outlines the roles and responsibilities of each of the Parties to this Agreement with respect to Communications Activities related to the funded Project.

This Communications Protocol will guide all communications activity planning, development and implementation to ensure clear, consistent and coordinated communications to the Canadian public.

The provisions of this Communications Protocol apply to all Communications Activities related to this Agreement including any Projects funded under this Agreement.

Communications Activities may include, but are not limited to, public or media events, news releases, reports, web and social media products or postings, blogs, project signs, digital signs, publications, success stories and vignettes, photo compilations, videos, advertising campaigns, awareness campaigns, editorials, and multi-media products.

C.2 GUIDING PRINCIPLES

The Parties recognize the importance of managing the delivery of coherent Communications Activities based on the principle of transparent and open discussion and collaboration.

Communications Activities undertaken through this Protocol should ensure that Canadians are informed of infrastructure investments made to help improve their quality of life and that they receive consistent information about the funded Project and its benefits.

The Communication Activities undertaken jointly by Canada and the Recipient should recognize the funding of all contributors to the Project.

The Recipient's public acknowledgement of financial assistance received from Canada is a condition of funding under this Agreement.

The Recipient will address any deficiencies and/or corrective actions identified by Canada or by the Oversight Committee.

C.3 GOVERNANCE

The Parties will designate communications contacts and form a communications subcommittee that will be responsible for preparing the Project's communications plan, overseeing its implementation and reporting on its results to the Oversight Committee.

C.4 PROGRAM COMMUNICATIONS

Canada retains the right to meet its obligations to communicate information to Canadians about the Program and the use of funding through its own communications

products and activities.

Canada and the Recipient may also include general Program messaging and an overview of this Project as an example in their own communications products and activities. The Party undertaking these activities will recognize the funding of the Parties.

Canada and the Recipient agree that they will not unreasonably restrict the other Party or other funding contributors from using, for their own purposes, public communications products related to the Project that were prepared collectively or individually by the Parties, and if web-based, from linking to them.

Canada and the Recipient will ensure that:

- a) Canada and the Recipient will work together with respect to Joint Communications about the Project.
- b) Joint Communications related to Project funded under this Agreement should not occur without the prior knowledge and agreement of each of the Parties.
- c) All Joint Communications material will be approved by Canada and the Recipient, and will recognize the funding of each of the Parties.
- d) Each of the Parties may request Joint Communications to communicate to Canadians about the progress or completion of Projects. The requestor will provide at least fifteen (15) business days' notice to the other Parties. If the Communications Activity is an event, it will take place at a mutually agreed date and location.
- e) The requestor of the Joint Communications will provide an equal opportunity for the other Parties to participate and choose their own designated representative in the case of an event.
- f) As Canada has an obligation to communicate in English and French, Communications products related to events must be bilingual and include the Canada word mark and the other Party's logo. In such cases, Canada will provide the translation services and final approval of products.
- g) The conduct of all Joint Communications will follow the *Table of Precedence for Canada*.

Media events include, but are not limited to, news conferences, public announcements, official events or ceremonies, and news releases.

The Recipient agrees to collaborate with Canada on Communications Activities and products including, but not limited to, Project success stories, vignettes, and multi-media products.

C.5 INDIVIDUAL COMMUNICATIONS

The Recipient will ensure that:

- a) Where a website or webpage is created to promote or communicate progress on a funded Project or Projects, it must recognize federal funding through the use of a digital sign or through the use of the Canada wordmark and the following wording, "This project is funded in part by the Government of Canada." The Canada wordmark or digital sign must link to Infrastructure Canada's website, at www.infrastructure.gc.ca. The guidelines for how this recognition is to appear and

language requirements are published on Infrastructure Canada's website (<http://www.infrastructure.gc.ca/pub/signage-panneaux/intro-eng.html>).

- b) The Recipient will be required to send a minimum of one photograph to each of the Parties of the construction in progress, or of the completed project, for use in social media and other digital individual Communications Activities. Sending the photos will constitute permission to use and transfer of copyright. Photographs are to be sent to infc.photo.infccanada.ca along with the Project name and location.

C.6 OPERATIONAL COMMUNICATIONS

The Recipient is solely responsible for operational communications with respect to the Project, including, but not limited to, calls for tender, construction, and public safety notices.

Operational communications will include the following statement: "This project is funded in part by the Government of Canada". Operational communications as described above are not subject to the federal official languages policy.

Canada and the Recipient will share information promptly with the other Party should significant media inquiries be received or if major stakeholder issues relating to the Project arise.

C.7 SIGNAGE

Unless otherwise agreed upon by Canada, the Recipient will produce and install a sign to recognize contributors' funding at each Project site in accordance with current federal signage guidelines. The sign's design, content, and installation guidelines are provided by Canada (<http://www.infrastructure.gc.ca/pub/signage-panneaux/intro-eng.html>).

Where the Recipient decides to install a permanent plaque or other suitable marker with respect to the Project, it must recognize the federal contribution and be approved by Canada.

The Recipient will ensure that signs are installed at the Project site(s) at least one (1) month prior to the start of construction, be visible for the duration of the Project, and remain in place until one (1) month after construction is completed and the infrastructure is fully operational or opened for public use.

The Recipient will ensure that signs are installed in a prominent and visible location that takes into consideration pedestrian and traffic safety and visibility.

Sign installations shall be reported to Canada as per subsection 8.1 b) (Progress Report).

C.8 ADVERTISING CAMPAIGNS

Recognizing that advertising can be an effective means of communicating with the public, Canada and the Recipient may, at their own cost, organize an advertising or public information campaign related to the Program or the funded Project. However, such a campaign must respect the provisions of this Agreement. In the event of such a

campaign, each Party agrees to inform the other Party of its intention, no less than twenty-one (21) business days prior to the campaign launch.
